# GLUE GUN INSTRUCTIONS

## CAUTION:

Read and understand these instructions and warnings before using your glue gun. Retain these instructions for future use.

## SAFETY PRECAUTIONS:

- Keep out of reach of children.
- When using electric tools, basic safety precautions should always be followed to reduce the risk of fire, electrical shock and personal injury.
- Guard against electric shock. Prevent body contact with ground surfaces, like pipes and appliances.
- Do not touch the nozzle area or melted glue.
- ~~Keep work area clean, dry well lit and clear of flammable materials.~~
- Always use safety glasses.
- Do not use in areas where the risk of explosion is present.
- Do not use near water or moisture.
- Disconnect tools when not in use.
- Avoid accidental discharge. Do not touch to glue stick or trigger except to dispense glue.
- For indoor use only. Store in a dry cool place away from moisture.
- Do not make repairs to the glue gun. Check the glue gun for damage before use, never use a damaged glue gun.
- Inspect extension cords for wear or tear. Don't abuse the power cord.
- Never carry by the cord or pull the plug out by the cord.
- If the power cord is damaged it must be replaced by the manufacturer or a qualified professional.
- Do not leave the gun unattended when it is plugged in.
- Place the gun in an upright position when idle.
- When glue gun is hot do not lay it on it's side.
- Do not pull glue sticks from the gun, this may damage the feed mechanism. To change glues, cut off the protruding end of the glue stick then feed the new glue through.
- Do not use on materials sensitive to heat.
- Do not use to hold heavy loads.

## OPERATING INSTRUCTIONS:

Please read carefully before using your glue gun.

1. Plug in glue gun to a 240V (AC) 3 pin mains socket.
2. Feed a 7.2mm diameter glue stick through the circular opening at the back of the gun.
3. Allow to warm up for approx 3 - 6 minutes.
4. Squeeze trigger to feed glue stick through the nozzle. Release trigger to stop flow.
5. Test on a sample of the surface to ensure surfaces glued are suitable for hot glue application.
6. Press surfaces together within 15 seconds.
7. Unplug gun when finished.

## SPECIFICATIONS:

**Voltage:** AC 240V-50Hz

**Power:** 10W

**Glue stick dm:** 7.2mm

**Power cord:** 0.9m

### WARNING:

Always wear protective gloves and safety goggles when using this product.  
Do not touch the guns nozzle or melted glue.  
If glue comes into contact with skin, do not remove, apply cold water to the area.  
Keep out of reach of children.
