B		Bed Leg	4	4
C		Short Metal Pipe	4	6
D		Centre Plastic Junction	2	4
E		Bed Support Leg	1	2
F		Cover	1	1
G		Canopy (optional)	1	1
H		Tent Pole (optional)	4	4
I		Carry Bag	1	1

Installation Steps for Pet Bed

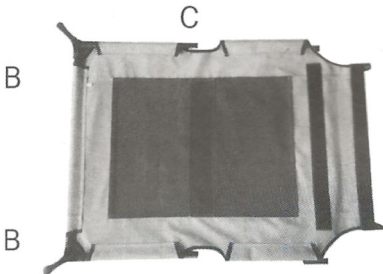

①

Separate the velcro on the back of cover and insert the metal pipe A into the fabric as illustrated.

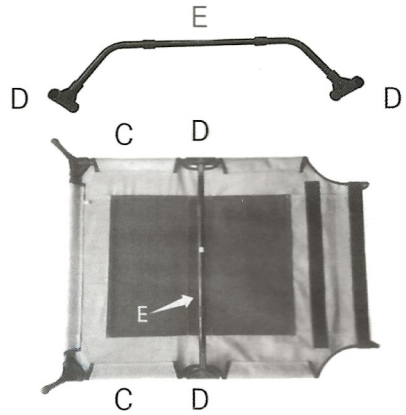

②

Insert 2 bed legs B into metal pipe A.

③

Insert 2 metal pipes C into the bed legs B as illustrated.

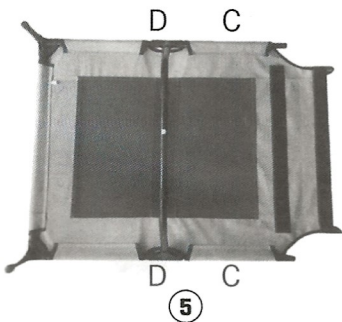

④

Connect the 2 centre plastic junctions D to the bed support leg E as illustrated. Then insert plastic junctions D into metal pipes C.

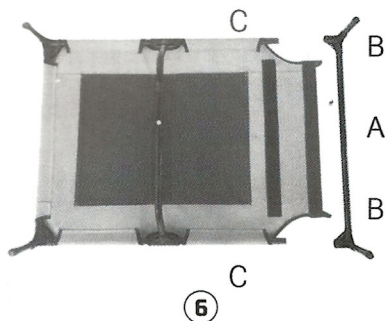

Notes:

1. To keep the bed and cover flat, please adjust the fabric with some force to move into the right position when assembling.
2. For step 5-6, please align metal pipes with plastic parts first, then insert the pipes into the plastic parts.
3. For step 5, the velcro may not be completely covered. As the cover being used for a period of time, will be a little looser than before, then you could tighten the cover the velcro completely.
4. When the cover has been used for a while, you will be able to tighten the velcro.

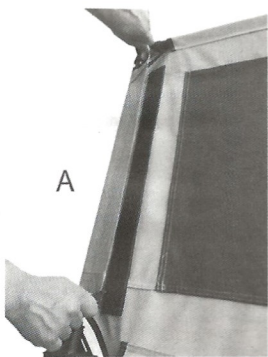

Installation Steps for Pet Bed

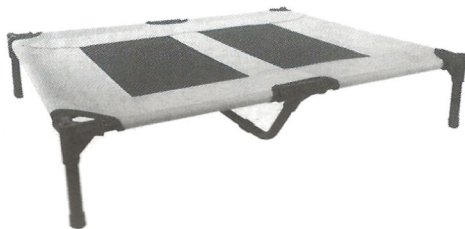

Insert the other 2 metal pipes C into plastic junctions D.

Connect metal pipe A with 2 bed legs B, then insert B into pipes C.

Pull hard over the metal pipe A, then stick the velcro. (see note 3)

Turn the pet bed over.

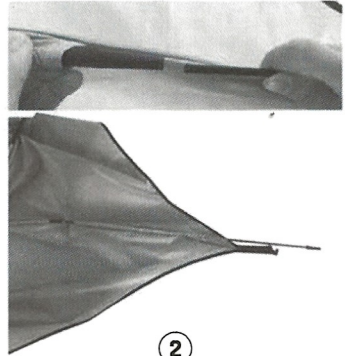

If you have any problems with assembly or questions, please contact us via our e-mail info@easipet.co.uk or website www.easipet.co.uk

Installation for Pet Bed with Canopy

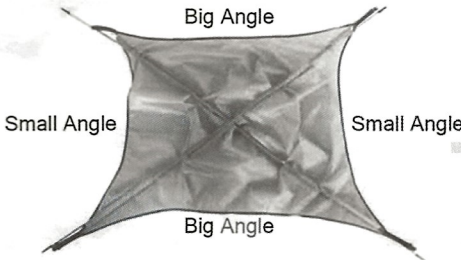

1

Parts G and H required

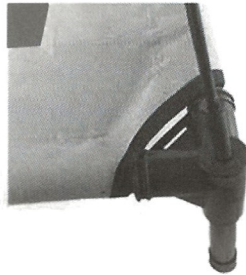

2

Insert 4 tent poles H to the plastic connectors through the holes on the canopy.

3

Canopy finished! (Note: To connect the canopy with the pet bed correctly; the bigger angles of the canopy should be pointed to the long sides of the bed, the smaller angles of the canopy should be pointed to the short sides of the bed.)

4

Plug the tent pole ends to the corners of the bed.

5

Secure the canopy with the bungee cords at each corner of the bed legs B.

6

Finished!
(Note: The canopy side with plastic connectors faces outwards)
