Precautions for use of egg beater

- 1: The results show that the use of cup containers is better and more uniform.
- 2: All kinds of containers and tools should not contain oil and water.
- 3: The yolk should be separated from the egg white before mixing.
- 4: The mixing head should be stirred in the liquid, not on the surface of the liquid.
- 5: When the egg beater shakes, just use a little force to straighten the rod
That's it.
- 6: Please charge the product for 3 hours before using it.
- 7: Keep the product out of the reach of children.

Suggestions and tips

- 1: It is recommended to use cup-shaped container. the effect is better. In the process of use, the mixing head should be downward, hold the machine body by hand, tilt 45 degrees to send, first from the first gear then according to the situation, to the third gera.
