Solar Powered Motion Sensor Light

- ① Expansion pillar-hinge
- ② Hole
- ③ Screw
- ④ Solar panel
- ⑤ PIR motion inductor
- ⑥ ON/Off Switch button
- ⑦ LED panel light

— .1. —

Specification:

1. Solar panel: 0.55w, 5.5V
2. Li-ion battery: 1200mAh, 3.7V
3. LED power: 0.2w, 5000K-5500K, 12PCS 22-24lm/Pcs
4. Motion angle and distance: 120°, 3m
5. Light delay: 10S
6. Switch: OFF/AUTO
7. Lighting mode:
 - OFF
 - High light
8. Size: 124*96*48mm

Product Features:

1. Recharged by sunlight and store power for overnight lighting.
2. Over 12 hours lighting time after one day charge.
3. Weatherproof IP64, heatproof and durable.
4. Intelligent energy-saving.

— .2. —

Operation Instructions:

1. Unlock and activate the solar light:

The internal battery is locked from factory for safety shipment, so users have to use supplied Key pin to click the "on/off" switch hole and unlock the battery and lighting system.

2. How to install the device?

Please use the supplied Expansion pillar-hinge and screws to mount the device on Pole or wall anywhere outside you want for lighting.

3. Charging via solar panel:

Please install the unit face south and make sure the solar panel can get the good sunlight directly without any shelter or glass. Normally it can be fully charged in one day under ideal bright sunlight.

4. Motion sensor function

It will auto turn on bright light when people walk around 2 meters close, and last 15 s, then auto turn off.

— .3. —

Working process instructions

Then screw on the wall
by the supplied screws

The black button is the start switch
It's open, and then it's closed.

Step 1: Charging undersun in
day time around 7 hours

①

.4.

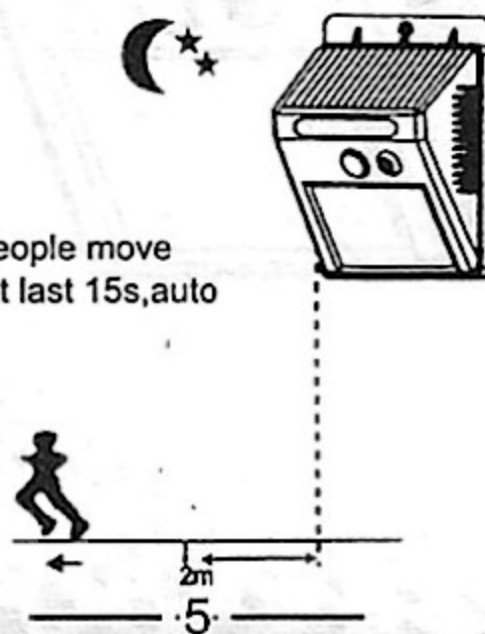

②

Step2: Auto bright light
at night when people
come close (last 15
seconds)

③

Step3: People move
away, light last 15s, auto
turn off

Warning:

1. Keep the device away from fire, and moist places in order to avoid explosion, leakage, moisture; (Weatherproof IP64)
2. Any severe shock to the charger is not recommended;
3. No one except professional technicians should attempt to disassemble the charger in order to avoid damaging the charger;

Tips:

1. Please fully charge the device before first use
2. If there is no good sunlight in 3 months, the battery may be out of power, so you have to charge it by bright sunlight, when it's fully charged, please use Supplied Key Pin to unlock the device and lighting system, otherwise, it can't work anymore.
3. Mode: on/off, NO DIM MODE

4. If the light is blink means the power is very low, you have to charge it by sunlight soon. Otherwise, the device will stop working soon..
5. If there is no good sunlight or in winter sunlight, especial in North countries, it may take longer time to fully charge the device and this is very normal for solar products.

Package included:
